## CARE AND CLEANING

Vacuum or wipe clean routinely with a microfibre cloth lightly dampened with cold water only. Soak up spillages as soon as possible with an absorbent dry cloth to prevent staining. If soiling has accumulated use a mild Proprietary cleaner (non-alkaline). Take care to remove all soap residues and dry with an absorbent cloth and brush pile back to its natural direction.

Do not steam clean - heat seals in stains.

Do not use bleach.

Do not tumble dry.

Do not dry clean.

Do not fully immerse in water.

Do not apply solvents, alcohol or any other chemical cleaners.

Please note that this is a delicate, piled product that needs to be handled carefully to avoid damage.

After upholstering we recommend brushing with a velvet brush to smooth out the pile.

Always order samples as screen and printed colors may not be an exact representative.
